Department of Civil Engineering

Based on the discussions made in the DAB meeting, the following actions were taken.

- Guest lectures and knowledge enhancement seminars to be conducted by distinguished scientists and industrial experts Dr.M.V.Ramana Murthy, Mr.K.Sakthi Ganesh to build up exposure in modern developments aspects in civil engineering for students.
- To conduct survey camp for two weeks for III year students to give exposure on usage of different surveying equipments, in incorporating field observations into results and discussions. It is a venture that makes students ready to work as a surveyor in their future camp location is selected as hillock, Thiruporur.
- Students are encouraged to organise a one day National level Technical symposium “Castellate 2K18” to develop their leadership skill, team management and organising ability. Mr.T.U.Ravichandar and Ms.Emimal are selected as General Secretary for symposium.
- Mock interview to be conducted for final year students to build confidence, interpersonal and communication skills and to make them prepare technically for core company recruitments .Department of civil Engineering has arranged the session by Mr.Rajesh of K. Raheja Corporation.
- A data base of final year students regarding higher studies and job (Site supervision, Geotechnical, investigations, surveyor etc., to be prepared and it should be shared to all industries connected with the department. Intitatives are incorporated and almost 90%students have been placed in core companies.
