

Criteria 7.1.10 – Locational Advantages and Disadvantages

As suggested in the DVV, the Excel sheets have been modified and uploaded in our website due to size constraints. Please follow the below link to view it.

<https://kcgcollege.ac.in/naac/>

Please scroll down to the DVV Clarification tab to view the files as per the criterion order.

Note:

File Names in the website are in the order:

- Criteria 7.1.10_Excel
- Criteria 7.1.10_Proof

Locational Advantages & Disadvantages

- As the institute is located in the IT Corridor of Chennai we have the privilege of getting internships, resource persons from the nearby corporates and have an active industry institute interaction
- This also enables us to run clubs like Toastmasters effectively with a healthy relationship with the corporates (it is worth mentioning that we have won '**Golden Gavel Award**' twice which is considered a supreme recognition for a club in the toastmasters fraternity and also have hosted **3 toastmasters conferences** in the college campus)
- We also have a better feasibility for inviting companies for campus placements and have signed many MoUs (it is worth mentioning that the college is in the **Platinum Category** for the years 2017 and 2018 in the **AICTE-CII Survey**). The list of all MoUs are listed in the college website : <https://kcgcollege.ac.in/academic-support/mou/>
- Also we have premier institutes like IIT Madras and Anna University at an accessible location which makes our faculty and students take part in programmes organized by many forums in these institutes. For example we are given awards like '**Best Partner Award**', '**InnoWAH Project Challenge Award**', '**Sparkling Star and Best Volunteer Award**' by IIT PALS (Pan IIT Leadership Series), an initiative of the IITAIIC (IIT Alumni Industry Interaction Centre, Chennai)
- Apart from the IT industries, we also have other R&D organisations like NIOT, NIWE etc. nearby which helps an active interaction with the scientists
- The College is within the city limit and is surrounded by adequate number of hospitals, paying guest hostels and transport facilities
- The institute also gives employment to the local residents. Children of those employees studying in the college get required tuition fee waiving for their wards.
- Being situated near the lakeside with more than 50% of open land, the campus has a natural breeze around the year. Being situated away from the main road, it's also free from air and noise pollution
- The College organizes many technical and social programmes like drone pit stop (drone racing event), robotic exhibitions, open house talent carnivals, social awareness programmes, conferences, workshops, e-cell activities etc., wherein the local community gets an opportunity to witness such events.
- Concerned authorities and government officials of the karapakkam village do participate in the social events like blood donation camp, founders day, e-week programme, clean India campaign (Swachh Bharat), NSS programmes etc.
- The front and rear roads around the college location were laid only after the institute took efforts to apply for the 'Namakku Namme' project by the Tamilnadu

Government. In 2017 these roads were renovated. Now the college is surrounded by many residential apartments and paying guest houses. However we were not able to lay one particular road due to some dispute by some persons in the local community.

Front and Rear Roads

- We have a Y's Service Club for Karapakkam village functioning in our campus sponsored by Y's Men's club, Mylapore. The Late Chairman Dr. KCG Verghese (Past Patron), Chairperson Dr. Elizabeth Verghese (Past Patron), Director and CEO Dr. Anand Jacob Verghese (Past Southern Region Director of Y's Men's Club) and Director Dr. Annie Jacob are active participants and contributors of this service club. The club has offered many services to the local community and other underprivileged and needed people in the city. Some of them are
 - Rs 5 Lakhs towards purchase of dialysis machine to TANKER Foundation during founders day celebration on 14.2.18 in the college campus
 - Mobile(bus) library project was installed spending Rs7.5 lakhs
 - Donation of 3 ambulances worth Rs.7.5 lakhs for people in Karapakkam, Padappai and Padur Villages
 - Donated Rs.10,000 / towards medical expenditure of YY Stevenson Shaji
 - Bag-to-School Project (distribution of school kits to 1000+ underprivileged school children) worth Rs.4.53 Lakhs

- Feeding the Poor in Karapakkam, Red Hills, Padur, Kelambakkam and Kanathur Areas worth Rs1.35 lakhs
- Sponsored Rs.1.5 Lakhs for the start of 'Y's Men Skill Development Centre'
- Rs 54,000 towards RBM Project providing 100 nets
- Rs 1 Lakh contribution to tribal children in Attapadi tribal school.
- Rs.1.95 Lakhs for orphanages and old age homes at Paiyanur & St.Thomas Mount
- Blood Donation Camp in association with Rotary club and collected 506 units of blood
- Rs.75000 to St.Joseph's convent, Koothavakkam Village for construction of buildings

House Keeping Staff during Christmas Celebration

Vice Principal distributing Christmas gifts as the House Keeping Supervisor Ms. Jayanthi read the names

Housekeeping Staff Group Photograph

7.1.10 Response to the Comment and Proofs

We would like to bring to your kind notice that we have not included any NCC and NSS activities; however we request you to consider the following.

1. As the college is located in the OMR Road which is the IT corridor of Chennai, many MoUs have been signed and the web page link containing the details with pictures is provided.

<https://kcgcollege.ac.in/academic-support/mou/>

Also, Criteria No. 3.5.2 can be referred for the scanned copies of the MoU documents

2. Employment to local community (Karapakkam Village, Kannagi Nagar):

- The attendance proof attested by the head of the institution is enclosed.
- List of employees with local addresses attested by the Head of the Institute is enclosed
- Sample Aadhar Card Copies of few highlighted employees are enclosed

3. List of Rotaract Club (Rotaract focuses on the development of young adults as leaders in their communities and workplaces. Clubs around the world also take part in international service projects, in a global effort to bring peace and international understanding to the world) activities (8 events) in the local community are enclosed.

4. Bag to school project for the underprivileged children in the local government schools: report enclosed.

5. Three Toastmasters International Division Conferences were hosted in the college campus as the location of the college is fitting for the corporate club members to commute. The detailed reports of the conferences are enclosed as attachments.

**List of House-Keeping Employees residing in Karapakkam Village and
Kanagi Nagar**

Bag to School Project

Y's men International, South India region and Hindustan group of institutions jointly organized 'Bag 2 school' project on 17/6/17 at KCG College of Technology, Karapakkam. Education Kits which included a school bag, T-Shirt, Cap and a LIFCO Dictionary were distributed to 1000 underprivileged students studying in various government schools. HRM Y'sm Dr. Anand Jacob Verghese, Regional Director, Y's men International South India region launched the programme in the afternoon around 2.00 pm and presided over the event. Earlier the children were served lunch in the college premises. An aero-modeling show and a campus trip was arranged and the children enjoyed it thoroughly. HRM Y'sm Prof. C. Robin, Regional Secretary, Y'sm. M.K.Rangaswamy, Regional Treasurer, Y'sm. Mohan Punnen, Past Regional Director & Advisor and Y'sm. George Thomas, Past Regional Director & Advisor were present for the programme. The school teachers who accompanied the children thanked the organizers by bestowing a shawl on the regional director. The programme came to an end with the distribution of snacks to the children in the evening. Later Dr. Anand Jacob Verghese addressed the press and media personnel who gathered in the college campus for coverage.

Following are the details of the schools who took part in the event

1. Govt. Girls hr. sec school, Kelambakkam
2. Govt. primary school, Kelambakkam
3. Govt. primary school, Thiruporur
4. Panchayat union middle school, Padur
5. Govt. hr. sec. school, Semmencherry
6. Govt. Hr. sec. school, Padappal
7. Govt. hr. sec. school, Perungudi
8. Panchayat elementary school, Karapakkam.

TM PRINCLEY SAMUEL ACS ALB
KCG TOASTMASTERS CLUB
AREA G2

As the Conference Chair, I take immense pleasure in sharing my learning experiences. Being an English teacher I always thought, what more am I going to learn in Toastmasters? But now, I tell you, I am able to communicate effectively only because of Toastmasters.

"Find that spark and rediscover!" DTM Suganthi Periasamy says in her message to Division G & K

OCT 28, 2017 CHENNAI

Hello Toastmasters of Division G and K,
Congratulations to all of you on successfully completing the first quarter of this Toastmasters year, filled with Officers Training Program, TLI programs, Judges and Contest Management training program, Club contest, Area contest, and not to forget the regular club meetings - you have survived in Toastmasters through this jam-packed quarter, and hence, congratulations!

At this juncture, I would like to share a story with you:

As you must be knowing, Thailand consists of many floating islands, and one such island is Koh Panyee. After the Football World cup of 1986, watching football matches on the television became a favorite pastime in the fishing village of Panyee. People would stay glued to their television sets during the leisure hours watching the invigorating football matches. As Panyee was a floating island, space was the biggest constraint. So, the people had to feel contented

AREA DIRECTOR'S MESSAGE | G2

TM PRAVEEN JOE ACG,ALB *"My focus is not to just motivate the clubs in earning DCP points rather the attention is to produce leaders who will be able to influence their fellow human beings"*

The timeworn argument of quality vs. quantity sounds hollow in today's scenario of hard competition. It is the unification of both quality and quantity that will help oneself carve a path for distinction and exaltation. A well-focused approach, effective utilization of natural skills, creative choices, and self-belief is essential to achieve superior quality. Area G2 of Division G is focusing more in producing fruitful communicators and trend-setting leaders who would prefer to contribute in bringing change to the society in which they live through the skills they acquire in their toastmasters journey. As an area director my focus is not to just motivate the clubs in earning DCP points rather the attention is to produce leaders who will be able to influence their fellow human beings through their speaking skills and help them set their goals appropriate, may it be personal, organizational or societal. This is indeed happening and the enthusiasm received through the members is extremely good. The area has 134 paid members as on date, out of which almost 60 percent are below the age of 25. This obviously increases the need of shepherding than just mentoring. Best efforts are taken to start two more clubs in this area before March 2017 exclusively for the student community. Hope with the support of the veteran and seasoned toastmasters of A guidance of the district leaders this would be made possible!

ACHIEVEMENTS – AREA G2

- There are 5 clubs in this area. 'KCG Toastmasters club' is the home club and is already 'Select Distinguished' and is marching towards achieving 'Golden Gavel'.
- It's a proud privilege that the club has produced 'teacher – leaders' who are very effectively playing their roles in full swing in various capacities in the division.
- The division conference 'Opulence 2017' is indeed hosted in the campus of this club which is 'KCG College of Technology'. Three other clubs namely 'Hindustan TM Club', 'KCG Youthmasters TM Club' and 'Great Lakes TM Club' are budding clubs which are striving their level best in improving their quality and are taking their best efforts in bringing up the club in various horizons.
- Paypal TM Club is a corporate club which has already produced quality speakers and is continuing to cherish in their toastmasters journey. This club has always been very supportive in organizing area level events.

REPORT ON OPULENCE 2018 (SEMI ANNUAL CONFERENCE) OF DIVISION G, DISTRICT 82 OF TOASTMASTERS INTERNATIONAL

Toastmastering and KCG TM Clubs.....An Introduction

Toastmasters International is a US headquartered **non-profit** educational organization that operates clubs worldwide for the purpose of promoting **communication** and **public speaking** skills initially and at present toastmasters has introduced a programme called pathways which covers all professional skills. There are about 3, 60,000 members in 141 countries which is divided in to regions and districts. KCG Toastmasters Club (for faculty) is functioning in our campus since the year 2011 with 28 faculty members as on date and KCG Youth masters TM club (for students) is functioning in our campus since 2016 with 22 members as on date. The Clubs belong to region 13, district 82 and division G, covering Tamilnadu and Srilanka. **It is worth mentioning that the club has bagged ‘Golden Gavel’ Award twice, a prime honour in the toastmasters fraternity and produced two district leaders who served as Area Directors and has been the first educational organization in the district to have a faculty club exclusively for teachers amidst many other corporate and community clubs.**

The Conference....

The Semi-annual Conference of Division G in association with Division B was hosted in our campus on Saturday, 17th November 2018. Around **380 toastmasters** from different corporate and community clubs from the division participated. The Conference Comprised of the following components

1. Humorous Speech and Evaluation Speech Contests
2. District Council Meeting
3. Keynote Speeches
4. Distribution of Educational and Leadership Awards.

We are happy to inform that 4 out of the final 20 contestants were from KCG TM Clubs.

Finalists from KCG

Dr. Jaya R, Assoc.Prof, English Division and **Balaji R** (Aero Student) were the two among the top ten contestants for the Evaluation Speech Contest and **Balaji**

R (Aero Student) & **Gautam R** (CSE Student) were the two among the top 10 contestants for the Humorous Speech Contest.

COLLEGE OF TECHNOLOGY

**Received Ford ECO Sport Car from Ford Pvt Ltd & CRETA SX 1.6 CRDI
Car from Hyundai Pvt Ltd**

THANK YOU

HYUNDAI

Industrial Collaboration with Nokia Solutions and Networks India Pvt Ltd, Oragadam, Chennai

About KCG

KCG College of Technology was founded in 1998 to fulfill the Founder-Chairman, Dr. KCG Verghese's vision of "Making Every Man a Success and no Man a Failure". It is a Christian minority institution, affiliated to Anna University, Chennai and approved by AICTE, New Delhi. KCG College of Technology aspires to become a globally recognized centre of excellence for science, technology & engineering education, committed to quality teaching, learning and research while ensuring for every student a unique educational experience which will promote leadership, job creation, social commitment and service to nation building. The college offers ten UG programmes and 4 PG programmes. Five of the departments are recognized as research centres by Anna University to admit candidates for Ph.D and M.S (by Research) programmes. Five of the UG programmes are accredited by NBA, New Delhi since June 2017 in the revised norms. This academic year the college bagged a number of recognitions and awards. To name a few, recently, the college has been conferred with the '**Best Institute Fostering Academia Research Industry Partnership**' Award by ASSOCHAM and '**Best Practices in Student Engagement**' Award by ICTACT. The Department of Electrical and Electronics Engineering (EEE), was awarded 'Best Industry-Linked Electrical Engineering & Allied Institute' award through AICTE and CII survey. In Computer Science and Allied Category the college was ranked as one among top 65 institutes in the country and in Mechanical and allied category, the institute stood within top 130 positions. Ultimately, the institute is placed in '**PLATINUM CATEGORY**' by AICTE & CII. The College is also listed in AAA+ category of best engineering colleges in the country by **Careers 360** and recognized as '**BEST INDUSTRY INTERFACE ENGINEERING COLLEGE**' in Tamilnadu by **PrimeTime**.

Nokia&IoT

Nokia is fundamentally a multinational telecommunications, information technology, and consumer electronics company, founded in 1865 with its headquarters in Espoo, in the greater Helsinki metropolitan area. Apart from several other endeavors, in relevance to the context of this case study, it is appropriate to highlight certain significant efforts taken by Nokia in the domain of Internet of Things (IoT). Today, IoT has already created new business models and connected experiences through the adoption of M2M and has provided support to develop innovative consumer products. The company focuses on real-world business models and use cases in order to build partnerships that will help to unleash the value of IoT in a regular business scenario. They do help service providers, enterprises and governments use the Internet of Things (IoT) to create new opportunities for people, societies and economies. A unit of Nokia named 'Nokia solutions and Networks India Pvt Ltd' located at Oragadam, Chennai was opportunistic enough to invite collaborations with the academia which finally ended up in a memorandum of understanding between KCG College of Technology and Nokia. The base behind this collaboration is presented as a case-study in the following content.

IoT in KCG Campus

'Well begun is half done' - Aristotle

On par with industrial collaborations and keen interest in innovation and academic research activities, KCG College of Technology has always been at the forefront in organizing pertinent industry connect programmes from time to time with a single minded objective of making KCGians 'industry ready'.

To start with, a panel discussion on IoT and poster presentation contest was organized on April 18th 2016, in our campus in collaboration with IET, a renowned international professional body which was functioning in all its zeal within our campus for more than 8 years.

Dr. Frank Johnson, President Ottawa Instrumentation Ltd, Canada was the chief resource person. The panelists comprised Dr. Padmanaban Ramaswamy, Director, Wireless R&D Lab, Nexgtech Wireless Systems Pvt. Ltd., Bangalore, Mr. DoraiThodla, Technology Entrepreneur & Founder, IMorph solutions, Chennai, Mr. Krishnaswamy Subramanian, Application Developer, ThoughtWorks Technologies India Pvt. Ltd, Chennai, Mr. Sukumar Subramanian, Head, Accel Animation Studios, Chennai and Ms. Meera Siva, Co-founder of Rana Investment Advisers.

The moderator Mr. Dorai Thodla initiated the panel discussion by raising challenging questions on the scope of IoT and the verticals to be addressed by IoT. Dr. Frank Johnson expressed his views and experience on the security threats on wearable devices in the health care sector. He elaborated the protocols and security algorithms to be implemented in the various layers of IoT communication. Dr. Padmanabhan Ramasamy spoke about existing scenario of IoT and the scope of IoT. He mentioned that “IoT is not a technology rather it is a framework where the existing technologies are being combined or joined together.” Also he shared his work experience on the concept of Internet of Humans and he explored how IoT can play vital role in the area of defense. Mr. Krishnaswamy Subramanian shared his experiences and challenges in implementing IoT in solar heaters. Mr Sukumar Subramanian shared his experience and the challenges he faced while handling video and animation files of larger size over IoT. Also he

elaborated the opportunities in the field of image processing and optimization. Ms. Meera Siva shared her views on how students can involve and contribute towards the domain of IoT, various opportunities to connect with this domain and also motivated the students to be innovative and aim at patenting their products. The Q & A session was highly interactive. In nut shell, the panel discussion covered all important aspects of IoT like scope and service in different sectors, issues in handling data of large volume, veracity and velocity, security issues, machine to machine interfaces, developing applications and standards, and finally marketing IoT products.

Meanwhile the college established an Intel – IoT Centre of excellence and innovative products were tailored in the centre. It is worth mentioning that one of our IoT based projects entitled “Water Surveillance System” was presented in the world’s largest hackathon namely “Smart Indian Hackthon 2017” organized by MHRD and AICTE, New Delhi and the team won the first prize of Rs. 1 Lakh.

Also a faculty development programme on ‘IoT for E-Health Initiatives in India’ was organized between 11.11.17 and 12.11.17. Dr. Swarna Ravindra Babu, Founder & CEO of Coovam smart systems and Services Private Limited and Dr. Hari Krishnan Ramchandran, Research Services-Medical Devices, HCL Technologies, Chennai were the resource persons.

Likewise many programmes were organized on the theme 'Internet of Things' and the organization was looking forward for suitable industry collaborators to elevate the initiatives to a higher level.

How it advanced further?

Again on the 28th of April 2017, few faculty from the department of CSE attended a Panel Discussion on Technologies and Challenges in IoT organized by IET Chennai Chapter. During the programme Mr. S. Cloudin, Associate Professor, CSE had a chance to interact with Mr. Sudarshan Pitty, Head of Chennai Factory and Mr. P Kartikeyan, Manager – Industrial Engineering, Test Engineering & Automation, Nokia, who were a few among the panelists and the conversation ended up finding some possibilities and opportunities for collaboration with Nokia.

In continuation with the conversation a visit to Nokia factory at Oragadam was arranged on 8th June 2017 and a team of faculty took part in a discussion with the officials during the visit. The focus of the discussion was to look for possible avenues and opportunities to collaborate with the company.

Further on 22nd July 2017, Mr. P Kartikeyan and Mr. Ramkrishna Patra, Head - Manufacturing Solutions & IoT Cluster, Nokia were invited to the college campus as resource persons to deliver a seminar on 'Futuristic opportunities and challenges in IoT' and they also visited the IoT Centre for Excellence, where certain projects were demonstrated to them by our students and the interaction was well received at both the ends.

On 18th September 2017, a team of faculty members of from the college visited Nokia factory for an industrial visit where they witnessed the production of network equipments including the assembly of its components.

Further, in November 2017, Mr. P Kartikeyan and Mr. Ramkrishna Patra visited the campus for the second time as resource persons for an AICTE sponsored two-week faculty development program on "Internet of Things for Ambient Assistive Living" between 30th October 2017 and 13th November 2017.

On 14th November 2017, a team of faculty members and students from the college took part in the Technology Day celebrations hosted by Nokia in their premises, during which our students demonstrated certain hand-picked project works and shared their research findings in the innovation lab of Nokia and one such demonstrated project entitled 'IoT based automatic gas stove system' won a special prize in the event.

Memorandum of Understanding

To continue and strengthen the collaboration, a MoU was executed between Nokia and KCG College of Technology on 11th January 2018. The event took place in the college and Dr. Annie Jacob, Director, KCG College of Technology and Mr. Ramkrishna Patra, Head - Manufacturing Solutions, Nokia Solutions and Networks India Private Limited signed the agreement on behalf of the respective organizations. Mr. G Agni, Specialist-Innovation Management, Nokia was given the responsibility of coordinating the deal ahead.

Internships and Product Development

The collaboration particularly focuses on bridging the gap between the industry and academia. Some of the key points in the agenda of the MoU were

- Joint Project Developments
- Joint Research Activities
- Joint Funding Proposals
- Joint CSR Activities
- Industrial Visits
- Guest Lectures
- Internships.

The Success Story

Nokia offered internship opportunity to the following students, Prashant Kumar (Final Year CSE), Prasad K Jose (Final Year CSE), Radheyam S (Final Year CSE), Infant Sam Christian (Third year CSE), Srinivasan Raghvan (Third year EIE) and Ujjwal Kumar (Third year EIE).

Students were allowed to learn the proceedings of the business day-in and day-out. During the stay in the campus, it was a quite interesting experience for the wards and they were also asked to sum up their observations in the form of a report enumerating the possible areas in which the factory shall be automated. It was a different ‘field-study’ experience for the students and they were also enthusiastic enough to identify six specific areas that required automation enabling IoT. Further, students were offered an IoT Product Development Internship and following list of projects were encountered by the team.

- ILASA- an Intelligent Logistic Allocation System Application.
- Faultress—an Industrial Internet of Things (IIoT) based Fault Resolution System
- Warehouse Aging Chromatic System – an IIoT based warehouse aging solution
- ChairIoT- a Smart Space Allocation system
- Third Eye – an AR automation project
- Hub fork – a lift alarming system

Support for Student Initiatives

Nokia supported a 24 hour coding contest - HASHN’HACK organized by the college through sponsorship. Also, Mr. Agni from Nokia was instrumental in organizing the programme being a part of the jury. The top performers of the contest were offered internship opportunities. Pratheep V.R. and Yatheshwaran of final year CSE were a few among the beneficiaries and they ended up the training in developing an android application based on Virtual Reality which is basically an automated training system for technicians in machine shops which equipped them with

sufficient information about the machinery they were handling. This application has been designed in such a way that it is supportable for Gear VR and Card board.

The development of Virtual Reality based trainer application for PC is under progress. This application will guide the technicians to assemble the components of a product in a sequential manner by providing them the step by step instructions both in the form of audio and animations. Recently, Pooja A (Third year CSE) and Ranjali Roy (Third Year CSE) were also inducted into this project work.

Mr. Prashant Kumar was given an employment offer as ‘MS Support Engineer’ since May 2018.

Research Collaborations

Apart from internship opportunities for students, development of a health care project for Nokia is in progress. Dr. Deepa Jose, Associate Professor, ECE is the Principal Investigator for the research work initiated and a team of students including Sanjay S (ECE Final Year), Praveen Kumar S (ECE Final Year), Madhan Raj S (ECE Third Year), Kavitha C (ECE Third Year) and Kiruthiga B (ECE Third Year) are also involved in the project. The objective of the research is to develop an integrated system to monitor certain health indicators like radiation level, eye stress level, Hb level and Glucose level of the employees in the factory and thereby detect, analyze and provide solutions for specific health issues based on the information that are collected non-invasively. For example, the radiation detector will detect the amount of radiation, a wearable smart sensor integrated on soft contact lens will be used to measure the eye stress level and sensors will be adopted to monitor the heart beat and study the glucose level. Likewise the information synthesized can be sent to a cloud and thereby using IoT, the health parameters are mentioned earlier are monitored and analyzed for providing necessary precautionary recommendations. Thus the submitted project is awaiting approval and is likely to be supported through funding by Nokia.

Conclusion

Thus the above presented study clearly illustrates how the institute fosters an atmosphere of intellectual vigor in which the youth may find their fulfillment and achieve greatness as technocrats. The College looks at education differently. It consistently and constantly works to form the students as Competent, Committed, Creative and Compassionate men and women for and with others and this have made KCG College of Technology climb to the top league of colleges in India.

Staff Visit to Nokia

ASSOCIATION WITH GAVS TECHNOLOGIES LTD

Activities

- Sponsorship of Rs.50,000 /- for Smart India Hackathon
- Internship for 15 students
- Placement for 8 students

KCG College of Technology, Chennai signed MoU with GAVS Technologies on 4th May 2018. The college is offering excellent education in the field of engineering for the past 20 years. To fulfill the vision of the founder chairman, Dr KCG Verghese, “Making Every Man a Success and no Man a Failure”, the institution always taking initiatives to offer whole sum education to the students, which gives them confident to face the competitive world. Industry-institution collaboration is such an initiative which offers students an technology focused learning to meet the need of the industry.

GAVS Technologies (GAVS) is a global IT services & solutions provider for customers across multiple industry verticals. GAVS offers services and solutions aligned with strategic technology trends to enable enterprises to take advantage of futuristic technologies like Cloud, IoT, Managed Infrastructure Services, and Security services. The MoU focuses on building an industry institution collaborative eco system which concentrates on Joint Project Developments, Joint Research Activities, Joint Funding Proposals, Joint CSR Activities, Industrial Visits, Guest Lectures and Internships.

The MoU signing ceremony was held at KCG College of Technology in the presence of Principal, Vice Principal, Registrar, Head of the departments and senior professors of KCG College of Technology. Mr Balaji Uppili Chief Customer Success Officer, Mr Murali Babu Head – Talent Acquisition and Ms Bindu Associate Manager - Marketing were present from GAVS Technologies
