Issue No. 7  
October 2022

## EDITORS' NOTE

Dear Reader

KCG College of Technology works towards holistic development culminating in our students making a mark at all facets of education. All our activities aim at providing a platform for our students to acquire knowledge and skills and also showcase their inherent talents.

The current issue in addition to our regular activities focuses on the activities conducted to celebrate our twenty five year long journey and 80th birthday celebrations of our beloved chairperson. The intercollegiate cultural extravaganza, Ethereal, launch of our 25 year logo and birthday celebrations of our chairperson aiming at assuring healthy and happy environment deserve a special mention.

Wish you all a Happy Reading!

## 2K22

The mega intercollegiate cultural extravaganza, Ethereal 2022 was held on 14<sup>th</sup> and 15<sup>th</sup> October on the campus. A total of 1914 students including students from the host institution and various Arts, Science and Engineering Colleges across the country participated in the 25 events conducted. The events were judged by experts who were KCG Tech alumni, corporate connects and celebrities from the fashion and cine industry.

On the first day, the main auditorium resounded with music as 22 bands went on stage, fighting it out for the top three positions. In the evening, **Nithyashree**, the Indian Idol Singer finalist and playback singer gave an electrifying performance. She was accompanied by celebrity alumni twins **Arun** and **Aravind**, the proprietors of Twins Entertainment and Casting Directors. This was followed by the DJ evening led by **DJ Deepika** which was a great hit among the students as they danced their hearts out to a list of superb music.

On 15<sup>th</sup> the celebrated choreographer, **Vijay Varma** gave a guest performance. This was followed by the Ramp Walk, as elegantly dressed models flaunted costumes and attitude in style, adjudged by the former Miss India **Anukreethy Vas**. The last was a host fashion show where young designers from the KCG School of Fashion Technology presented a curated modelling of their outfits. The highlight for the day was the entry in style of the South Indian actor and singer, **Dhruv Vikram**, who stole the show. The youth icon was given a grand welcome by students, and he responded by singing popular numbers and acting best scenes from recent block busters.

The two-day long festival ended with a valedictory function graced by the multi-faceted film maker and KCG Tech Alumnus, **Mr Vineeth Sreenivasan** and beautiful, talented actor, **Ms Athulya Ravi**. During the valedictory function, in his address, **Mr Vineeth Sreenivasan**, recollected his days on KCG Tech Campus as a student and later as the director of the film 'Hridhayam'. On request from students, he sang the hit number, 'Dharshana', to resounding cheers. The actor, **Ms Athulya Ravi** addressed the gathering. **Dr Anand Jacob Verghese**, Director and CEO, Hindustan Group of Institutions felicitated the gathering, and along with Director **Dr Annie Jacob** released the Silver Jubilee logo. The winners of the various competitions were recognised with certificates and cash awards.

## IT companies delay onboarding process of hired engg graduates

Ragu.Raman@timesgroup.com

Chennai: Top engineering colleges in Tamil Nadu are feeling the impact of the slowdown in the US and Europe as IT companies are delaying onboarding of 2021-22 graduates with job offers.

Institutions including College of Engineering, Guindy; Madras Institute of Technology (MIT), Chromepet; SSN College of Engineering, and some deemed universities say 5% to 10% of their students who received offers from Wipro, Cognizant, Mindtree and others are still waiting to join them. However, placement officers say the IT majors have assured them offers will not be withdrawn and all students with will be recruited in the coming months.

Of 2,116 students who got job offers on Anna University's four campuses, 162 (8%) are yet to join. "IT majors have assured us they will onboard all students in the coming months. We have blacklisted a few smaller companies for withdrawing job offers," said Mala John, director, Centre for University-Industry Collaboration (CUIC), Anna University.

### SLOWDOWN IMPACT

> 5%-10% of engineering graduates who received offers last year are yet to join work

> In Anna University, the onboarding of 162 out of 2,116 students is delayed

> IT and IT services companies are delaying the onboarding process

> Experts say companies did not get projects as expected due to slowdown

> Students onboarded between April and June are yet to be deployed on projects

> IT companies may extend their onboarding till March 2023

The university did not allow companies that did not honour the offers to take part

in placements this year.

SSN College of Engineering received 1,300 job offers last year. "The joining of around 60 students has been delayed by three months. However, there is no withdrawal of offers," said V E Annamalai, principal of the college. The number of companies visiting for campus hiring has not reduced this year, he added.

## Games, coding & more: How engg colleges plan to welcome freshers

Ragu.Raman@timesgroup.com

Chennai: From the basics of computing to heritage walks, pep talks by seniors, outdoor games and bridge courses, the first-year engineering students will have a busy first few weeks as colleges are planning several activities for the freshers as part of an induction programme this year.

Anna University is planning to allow the autonomous colleges to reopen for first-year students on or before October 15. University officials said the colleges with more than 80% admissions will be allowed to open the college after the second round of counselling is over. Most colleges are planning to give orientations about the flexible curriculum and specialisations that were introduced by Anna University this year.

"We will arrange campus tours and talks by senior students for freshers. Based on the feedback, we are arranging Tamil classes during the orientation programme for students from Andhra Pradesh," said R M Kishore, vice-chairman of RMK Engineering College.

### The orientation programmes are aimed at the smooth transition of students from school to colleges

The orientation programmes are aimed at the smooth transition of students from schools to colleges.

Abhay Meganathan, vice-chairman, Rajalakshmi Group of Institutions, said, the college will brush up basic concepts that are essential for engineering courses and teach coding during the orientation.

"There is a big gap between Class XII board exams and the starting of classes for first-year engineering students. Students tend to forget the basics in Class XII that are essential to understand the engineering lessons. We also teach them coding before jumping into the full-time engineering syllabus," he said.

Many colleges also started online activities for students who have already joined the colleges and facilitated interaction with the faculty members. "With the delayed start, they should know what to expect when the semester starts," he added.

Some city colleges are planning to conduct heritage walks to students coming from outside the state and other cities in Tamil Nadu.

"We are planning to arrange heritage walks for students from other states to the places like George Town in Chennai and Mamallapuram to give them a flavour of Chennai and Tamil Nadu's history," said P Deiva Sundari, principal of KCG College of Technology.

Mofussil colleges are planning to conduct basic English grammar classes for first year students during their induction programme.

"We will conduct outdoor games for students to make them gel with each other. Besides bridge courses, we will conduct English grammar classes, basic computing for biology students during the orientation," said D Valavan, principal of Saranathan College of Engineering in Trichy.

## Free session on mental health

KCG College of Technology, in association with Y's Service Club of Chennai Karapakkam, is conducting a free session on mental health for school teachers on October 29.

According to a release, the programme will help teachers to respond to mental health needs, identify suicidal tendencies among students and offer

support.

Professor Dr K Raman, MD (Psychiatry), Saveetha Medical College; and Uma Suresh, mental health counsellor and therapist will be the resource persons.

The workshop will be held at the college campus in Karapakkam at 9.15 a.m.

## IT companies delaying onboarding to March 2023: Industry experts

► From P 1

Usually, engineering graduates join the companies before October or November. IT companies are now delaying the onboarding to March 2023, say industry experts.

“In our previous batch, around 10% of students are yet to join. IT companies said they will onboard them in the coming months,” said P Deiva Sundari, principal of KCG College of Technology.

Colleges in tier-2 and tier-3 cities too have many students with offers waiting to join. “Our students received 620 offers. Of them 46 students are yet to join. Students with multiple offers have joined other companies in case of delay in onboarding,” said D Valavan, principal of Saranathan College of Engineering in Trichy.

Some deemed universities also said there was a delay in onboarding for a few students. “However, there is no alarming trend of delayed onboarding or withdrawal of offers,” said Sastra vice-chancellor S Vaidhyasubramaniam said. Of 2,400 students with offers, only 40 to 50 are waiting to get onboard, he added.

“With projects getting delayed even the students who joined before June are not getting deployed. So, we are onboarding students in a staggered manner,” said an IT industry expert.
