Late DR. KCG VERGHESE
Founder - Chairman

**HINDUSTAN GROUP
OF INSTITUTIONS**

*You should at first be useful to yourself,
then to the society and to the country that
gave birth to you. What I mean is that
each one of you should go back to your
native places after education and do
your best for your society and the
country to which you belong.*

*It should be your aim to develop yourself
into a good personality, a good
professional and a good human being.
You should be capable of achieving
something or the other with the
knowledge you acquire.*
