DOB : 22/3/2002

Age - 19

COURSES

- Textual Elements and Design (Completed on Coursera)
- Camera, Exposure and Photography (Completed on Coursera)
- camera Control (Completed on Coursera)

PROJECTS

1. Design and Development of Footwear for Cold Prone Zones:

- This project is about inventing a shoe that helps the wearer's foot to stay warmer in cold climatic environment.
- This helps in the regular blood flow to the foot with maintaining the body temperature.
- The invented shoe will be made lightweight and with natural fibre.
