National Workshop

on

*“Art of Programming” for
Polytechnic Students*

15th and 16th June, 2017

Coordinator

Mrs.T.P. Anithaashri

Organized by

Departments of
Computer Science & Engineering and
Information Technology
KCG College of Technology, Chennai

INTRODUCTION

This program aims to provide an overview of applications of computer science and information technology and practices in industrial needs. It will address the skills deemed essential for the successful technical updations right from identifying the problem and providing solution to defend the same through programming skill. At the end of the workshop, the participants will be able to go with satisfaction in carrying out their technical updations in the field of computer science and information technology.

OBJECTIVE

The key objective of the programme is to enable the participants to understand the technical aspects of programming language and to develop a suitable methodology for the industrial requirements. The participants will also learn about the primary use of computing techniques to overcome the limitations of existing methodologies. The primary focus will be on learning the modern technical revision for the industrial needs.
